

Topic Name	Trainer				
Java Fundamentals	Murali				
Java Introduction & Features	07-02-2025				
JVM, JRE, JDK - Architecture					
Java Program Structure					
Keywords and Identifiers					
Variables and Data Types					
Type Casting					
Operators					
Control Flow(Control Statements, Loops)					
Arrays					
Object-Oriented Programming (OOP)	Ratna Srikanth				
Classes and Objects	07-03-2025				
Constructors (Default, Parameterized)					
Inheritance					
Polymorphism, Method Overloading, Method					
Encapsulation					
Abstraction, Abstract Classes, Interfaces					
Access Modifiers(public, private, protected, default)					
Static Members					
Keywords and Usage(super, this, final, static)					
Inner / Nested Classes	07-04-2025				
Anonymous Classes					
String Handling	Ratna Srikanth				
String, String Builder, String Buffer	07-04-2025				
Common String methods					
Immutable Strings					
String Pool Concept					
String Comparison					

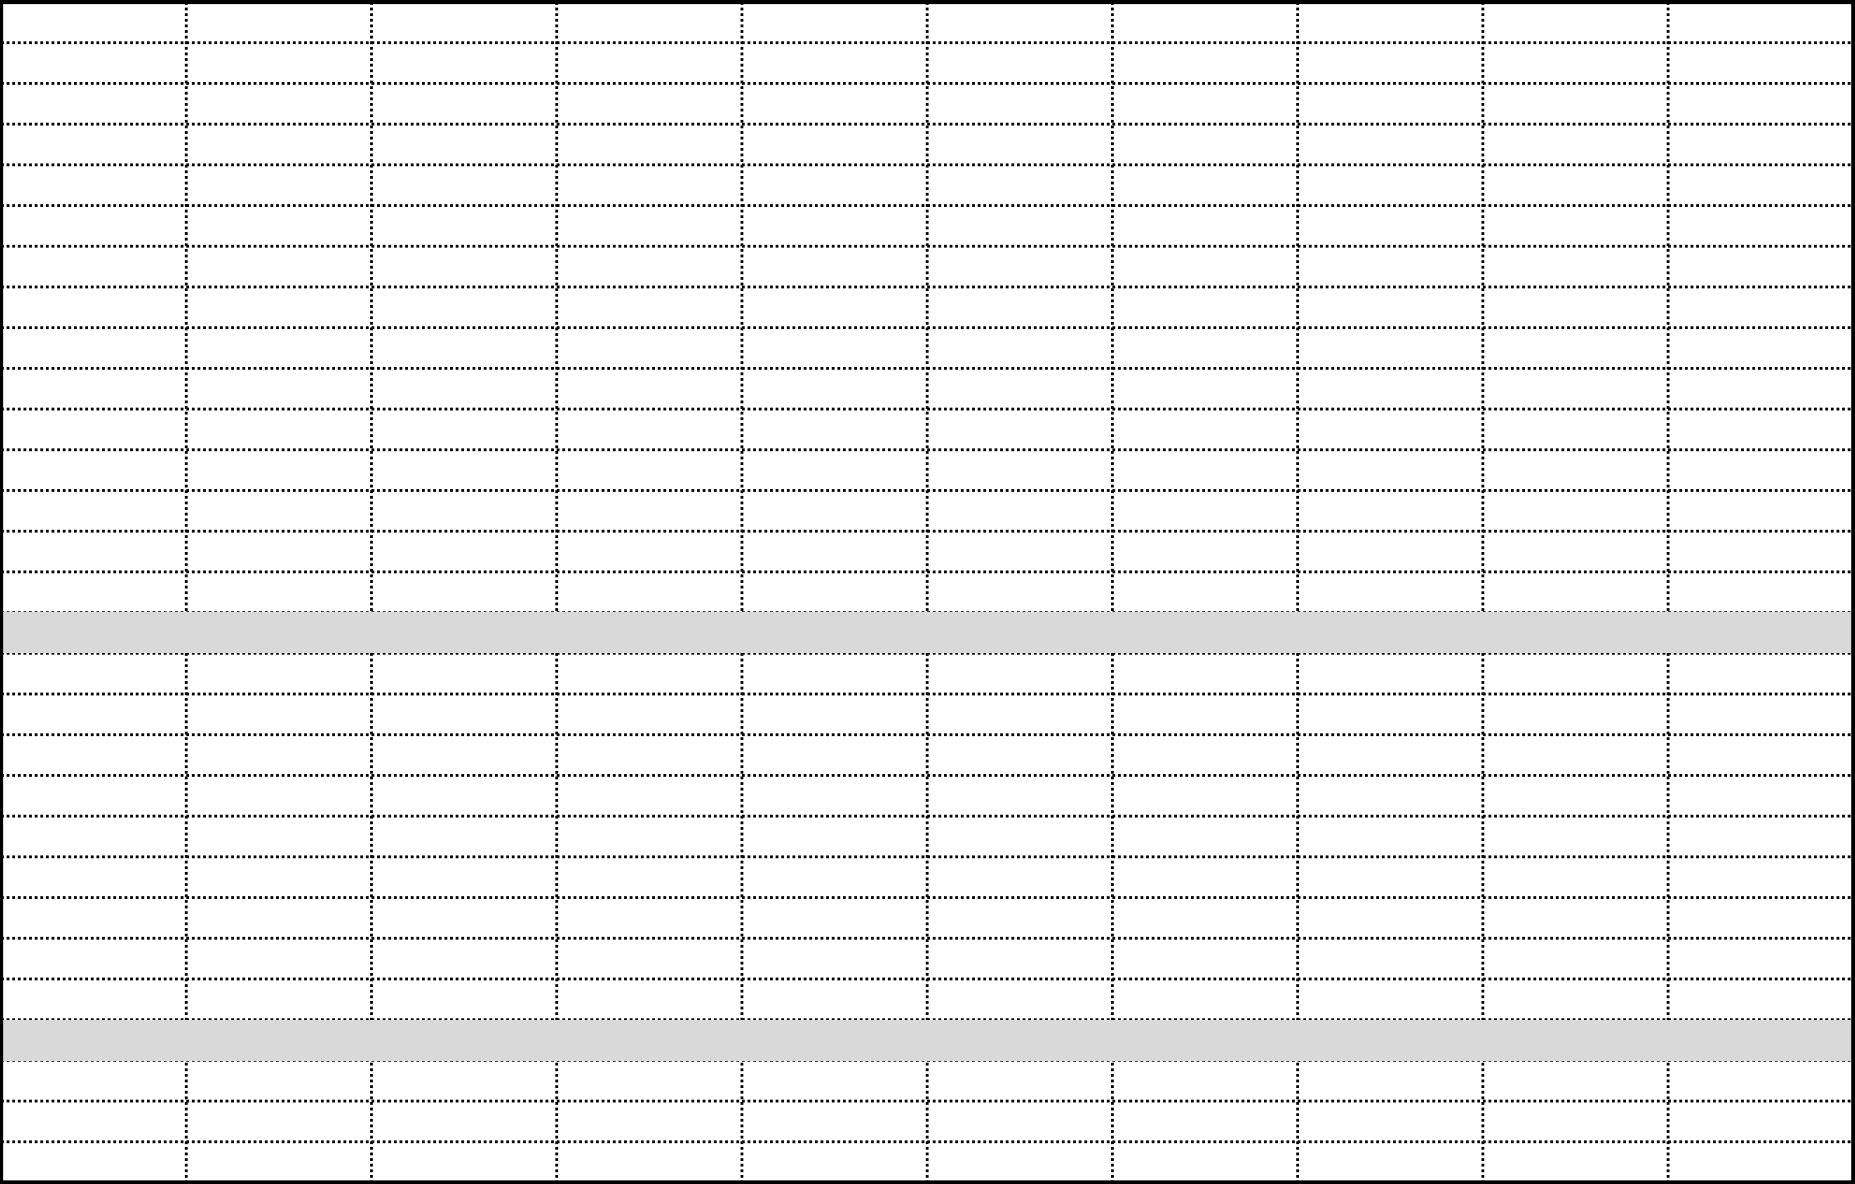

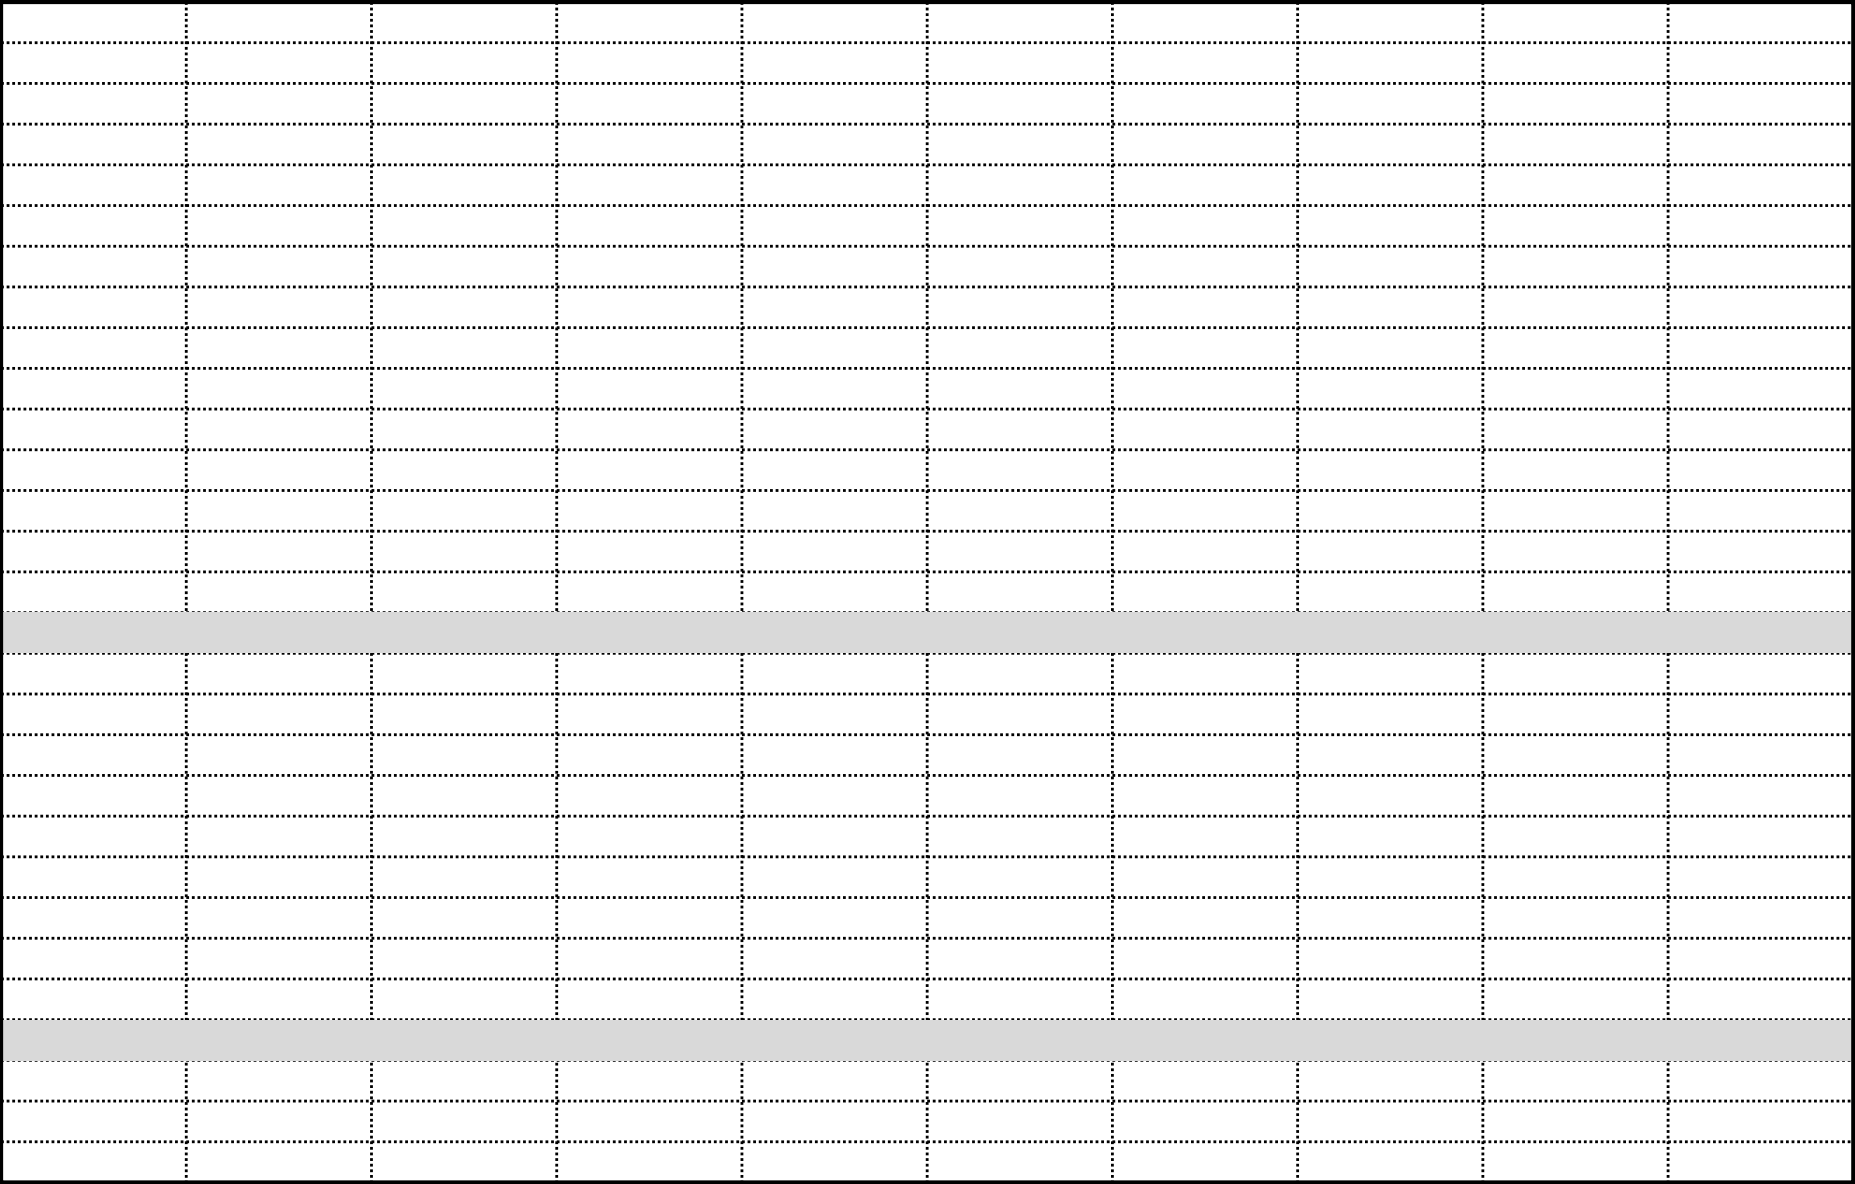

Exception Handling		Gautam			
try-catch-finally	07-07-2025				
throw and throws					
Checked vs Unchecked Exceptions					
Custom Exceptions					
try-with-resources					
Java Memory Management		Surya			
Heap, StackGarbage Collectionfinalize() m					
Java Collections Framework					
Collection Hierarchy	07-08-2025				
List, Set, Queue, Map Interfaces					
ArrayList, LinkedList					
HashSet, TreeSet, LinkedHashSet					
HashMap, TreeMap, LinkedHashMap	07-09-2025				
Stack, Queue, PriorityQueue					
Iterator, Listlterator					
Comparable vs Comparator	07-10-2025				
Collections Utility Class					
Wrapper classes & Autoboxing					
Java I/O (Input & Output)		Surya			
File Handling: File, FileReader, FileWriter	07-11-2025				
BufferedReader, BufferedWriter					
InputStream, OutputStream					
Object Serialization / Deserialization	07-14-2025				
Scanner and Formatter					
PrintWriter					
Java Multithreading & Concurrency		Harshitha			

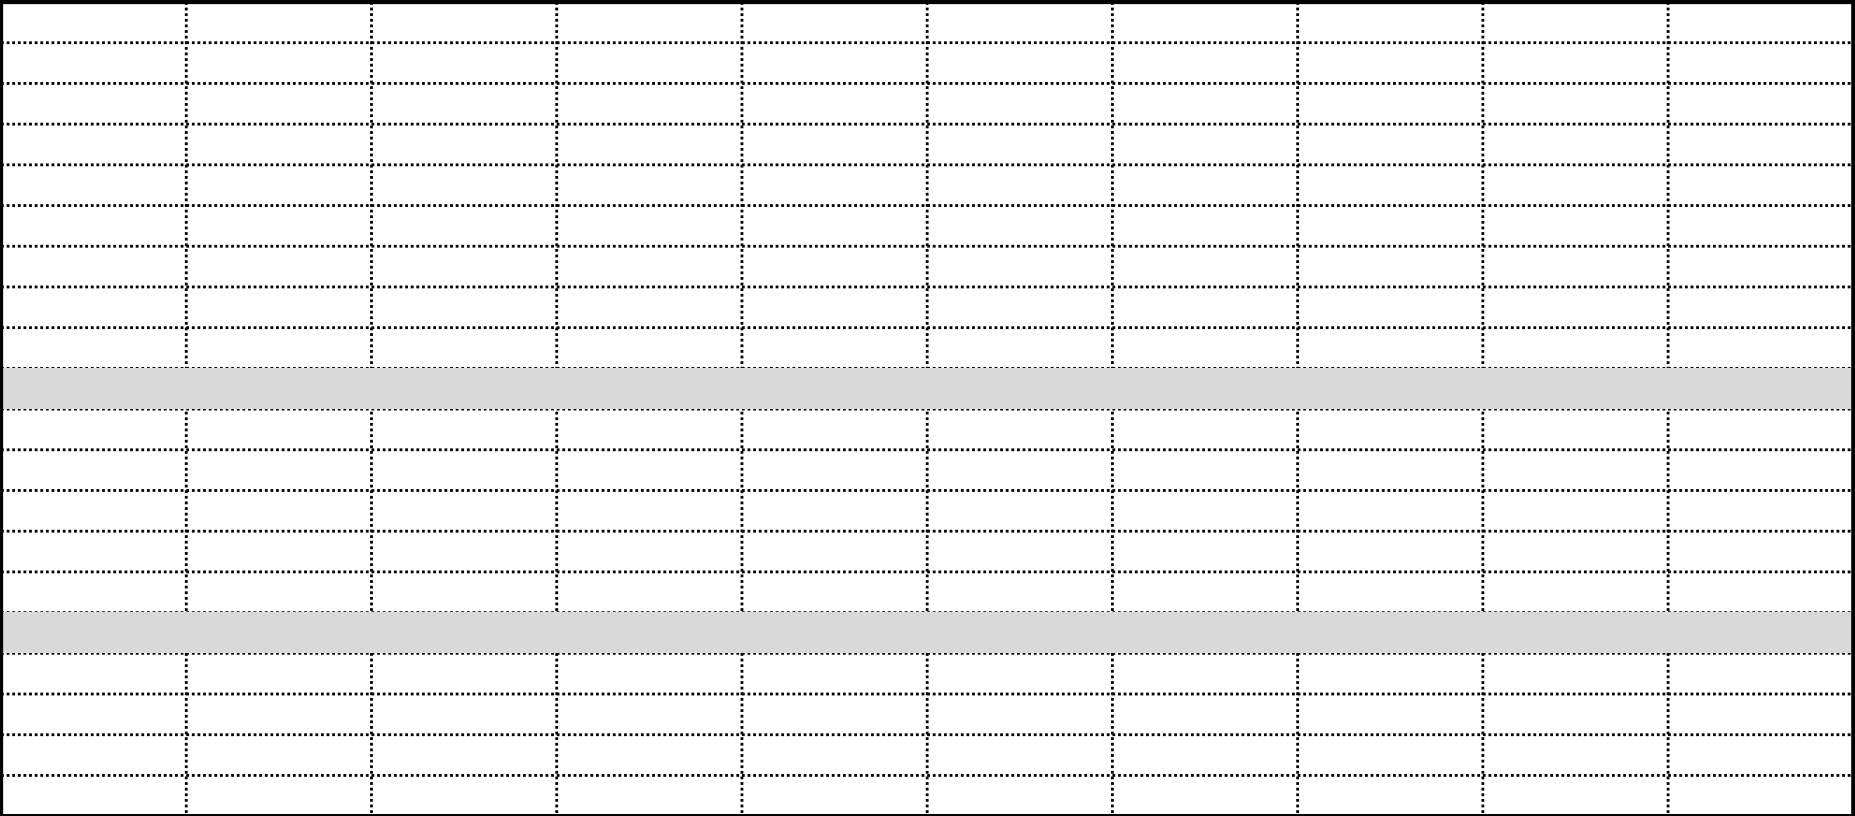

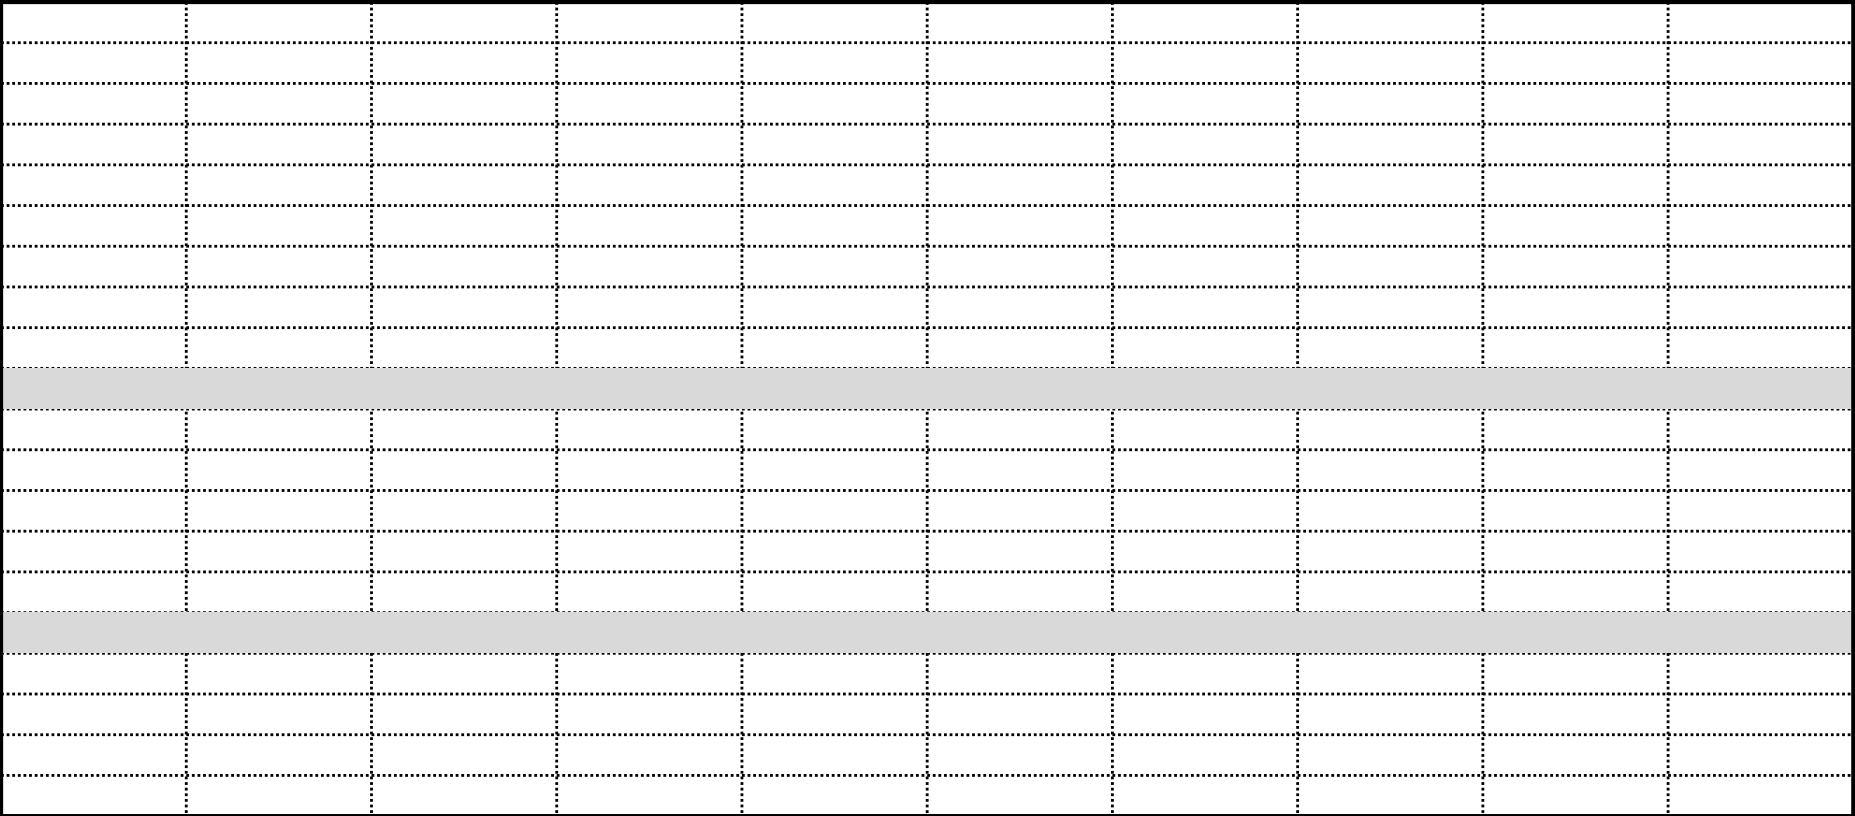

Creating Threads:a, Thread classb, Runnable	07-16-2025				
Thread Lifecycle					
Thread Priorities	07-17-2025				
Thread Pool (Executor Service)					
Callable and Future					
Concurrency utilities					
Executor Service and Completable Future					
SQL	Gautam				
Introduction to Databases and SQL	07-18-2025				
Database Design & ER Modeling					
SQL Syntaxes, Data Types, Aggregation	07-21-2025				
Manipulation, Functions and operators					
Joins, Database Design, Constraints and key					
MY SQL Basics					
JDBC (Java Database Connectivity)	Murali				
JDBC Architecture	07-22-2025				
Driver Types					
Connecting to DB					
Statement and PreparedStatement					
ResultSet					
Transactions					
Batch Processing					
CallableStatement (Stored Procedures)					
	Murali				
Design Patterns (MVC, Singleton, Factory, E	07-23-2025				
Java 8 Features	Preneet				

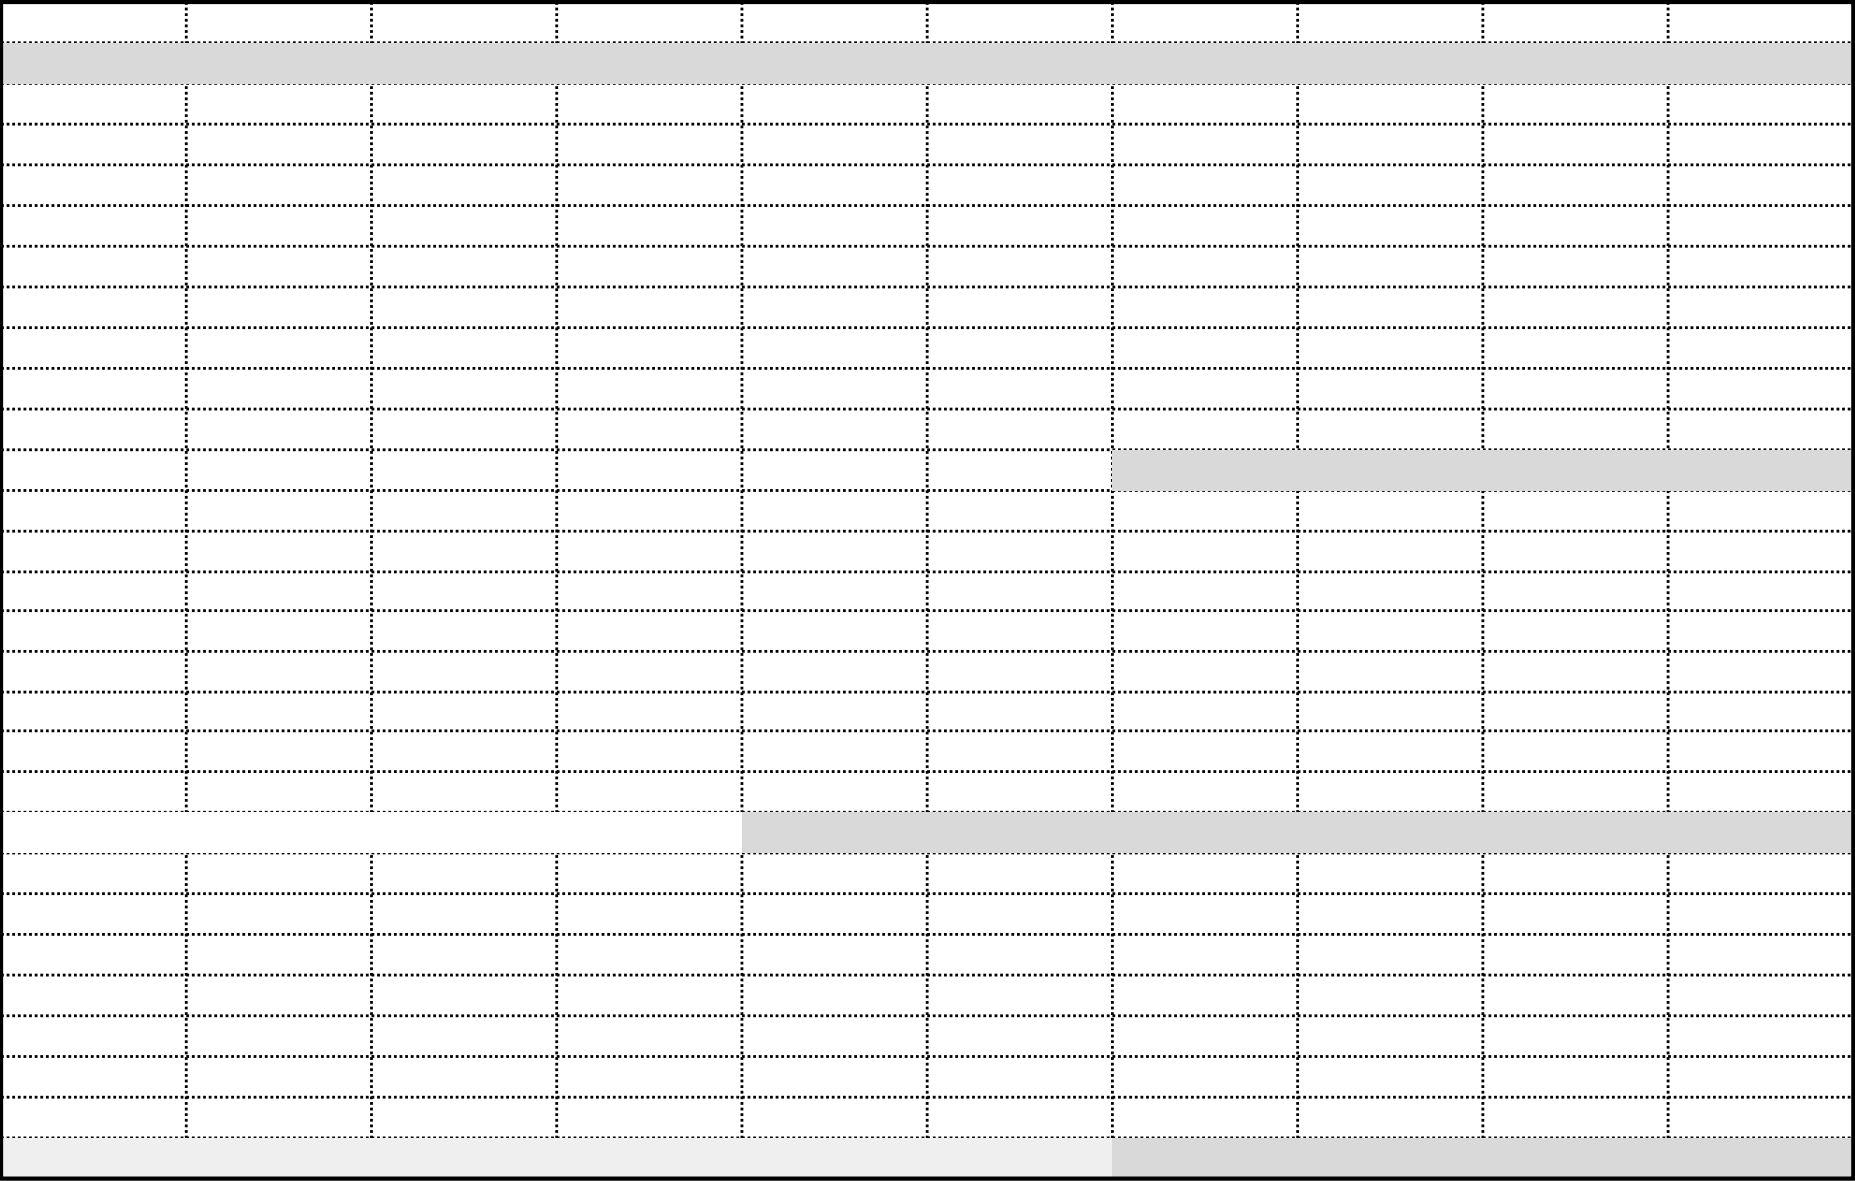

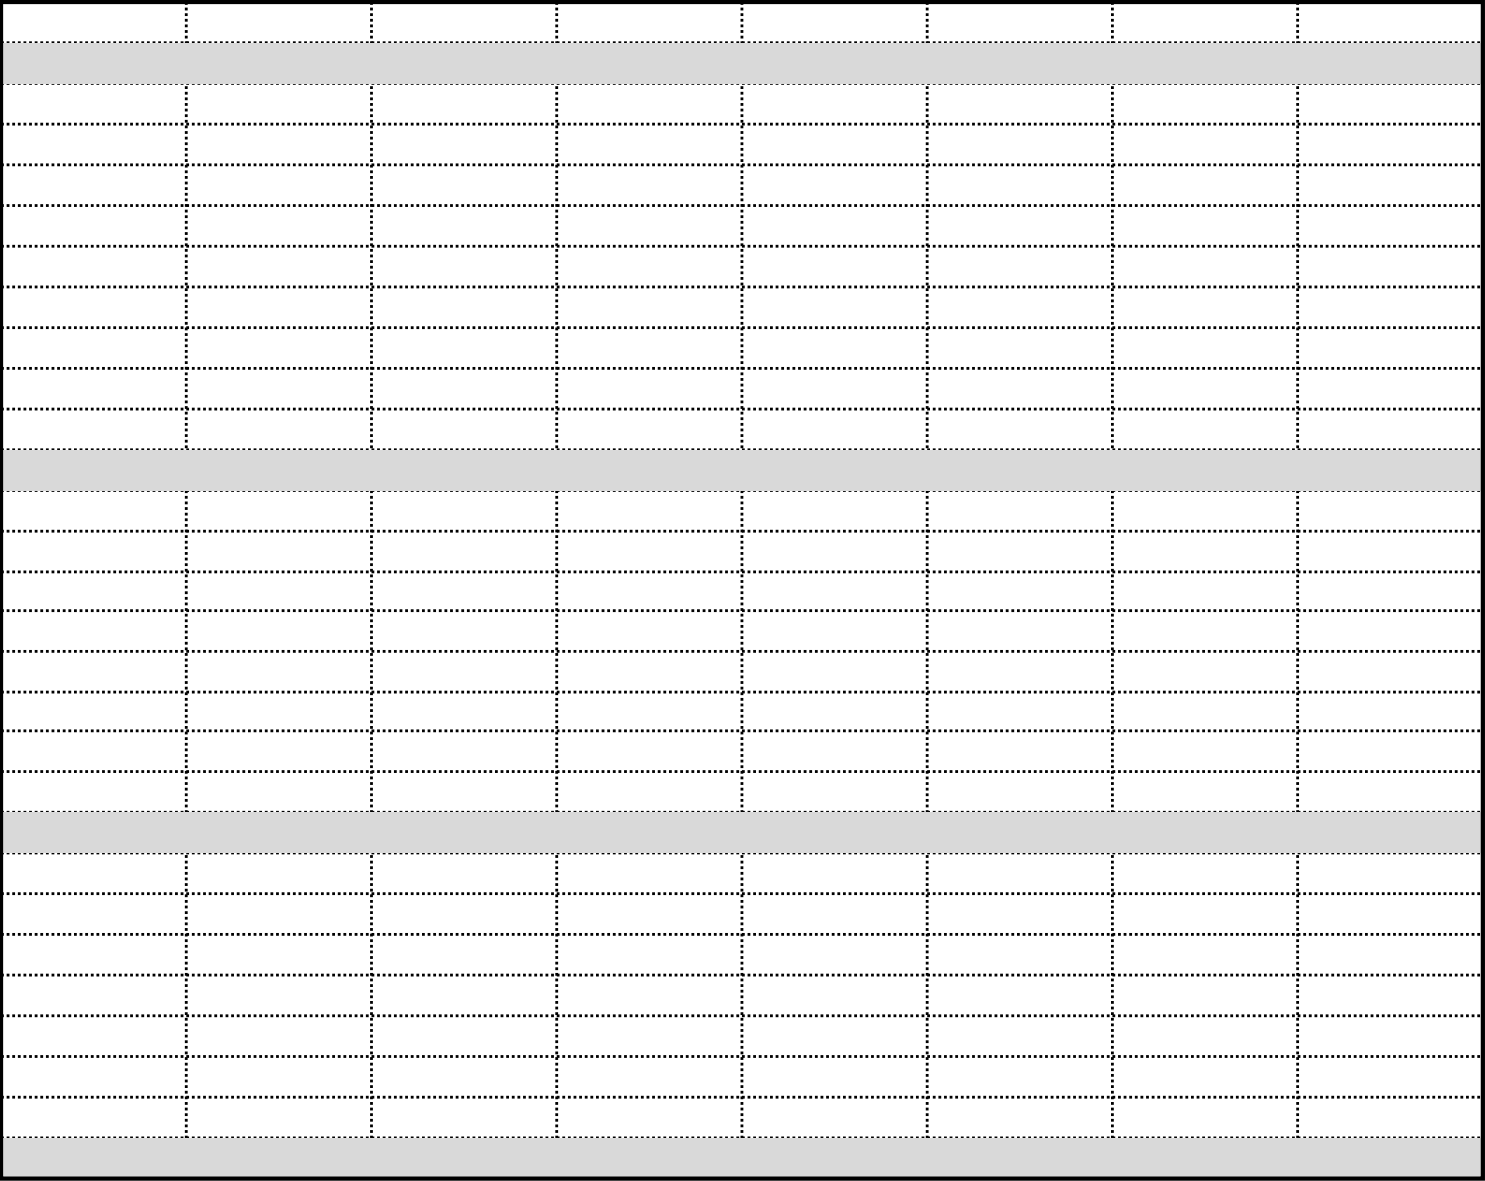

Lambda Expressions	07-24-2025				
Functional Interfaces					
Method References					
Stream API	07-25-2025				
Optional Class					
Date and Time API					
Default and Static methods in Interfaces					
Predicates, Consumers, Suppliers, Functions					
Servlets	Varma				
Servlet Life Cycle, ServletConfig and Servlet	07-28-2025				
Servlet API and Architecture					
Request and Response Handling					
Session Management	07-29-2025				
Filters and Listeners					
JSP	Varma				
JSP lifecycle, Architecture	07-30-2025				
Syntax, Implicit Objects in JSP					
JSP Actions & JSP Directives and Custom Tags	07-31-2025				
JSTL (JSP Standard Tag Library)					

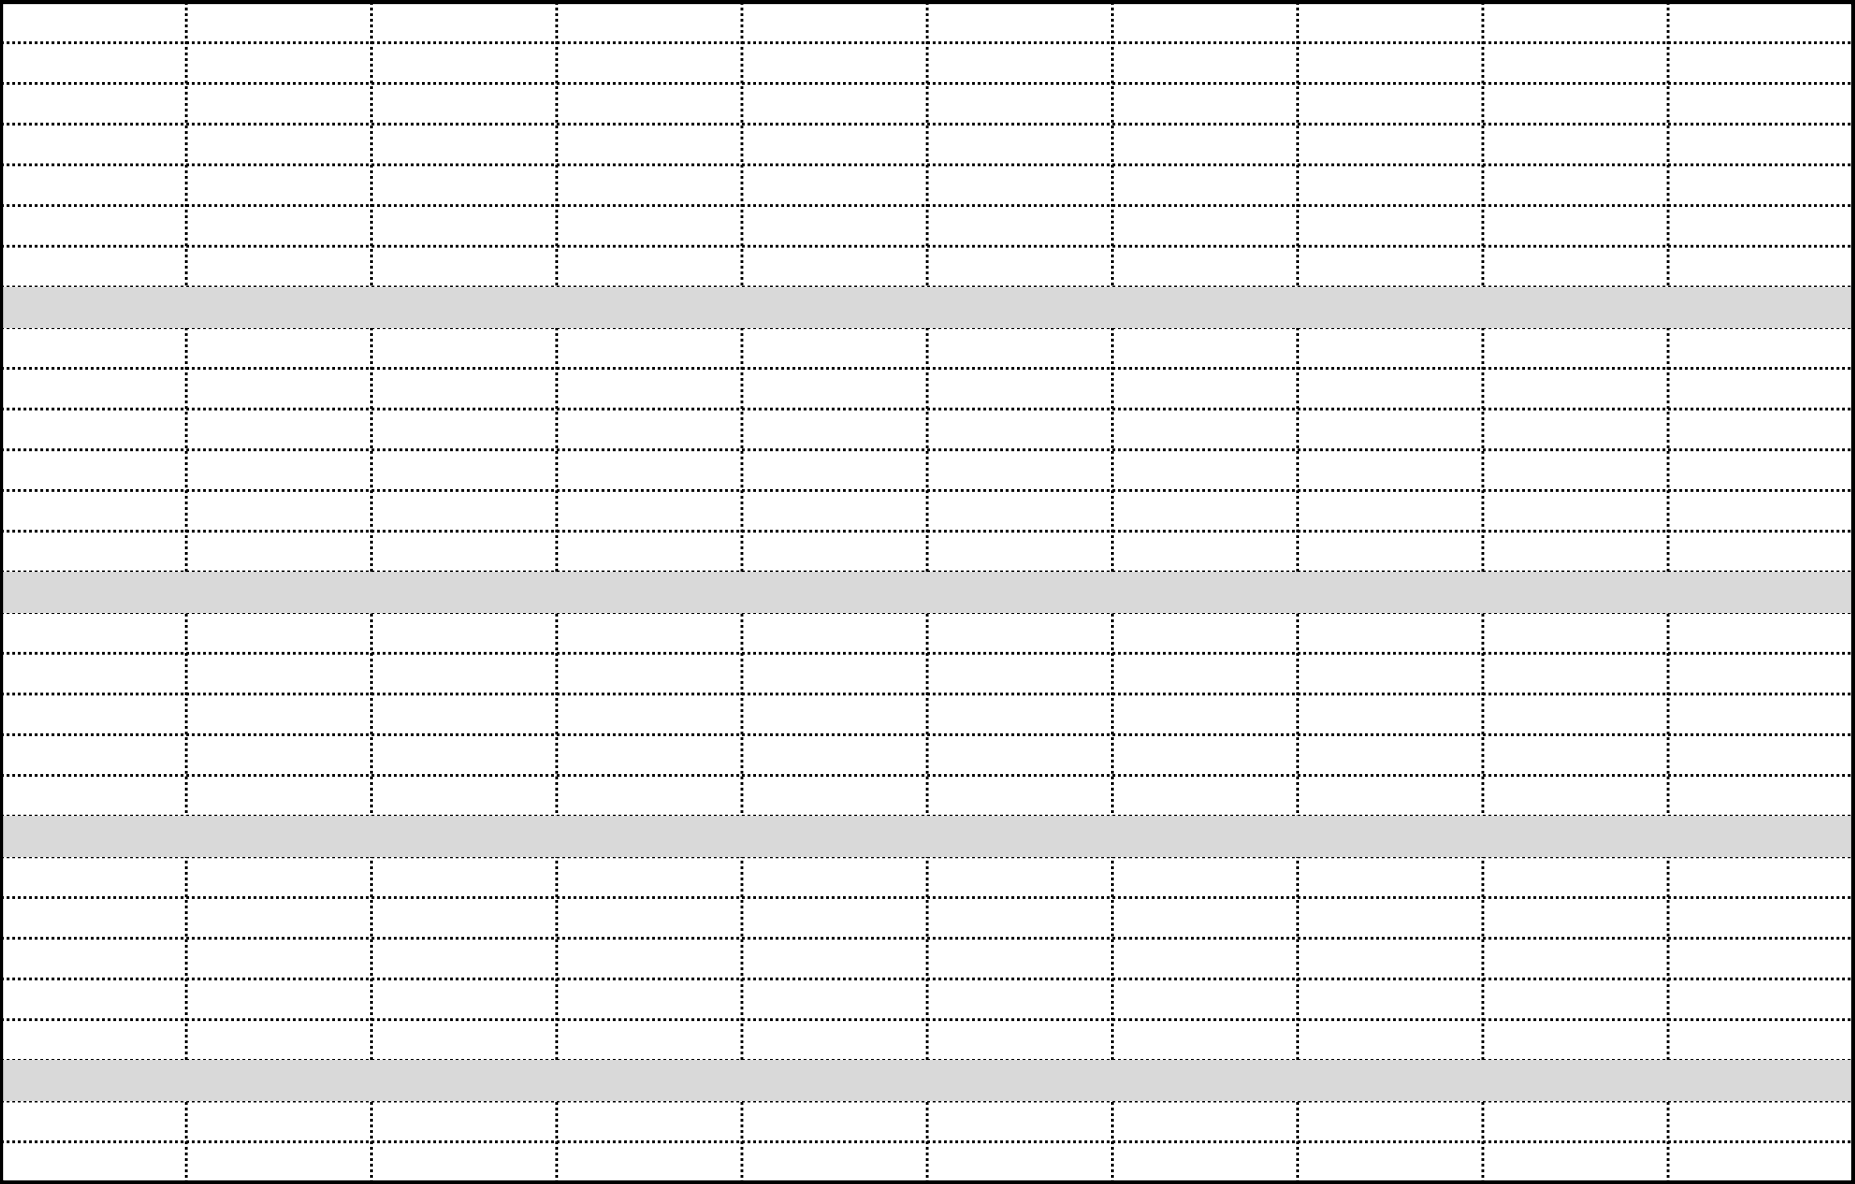

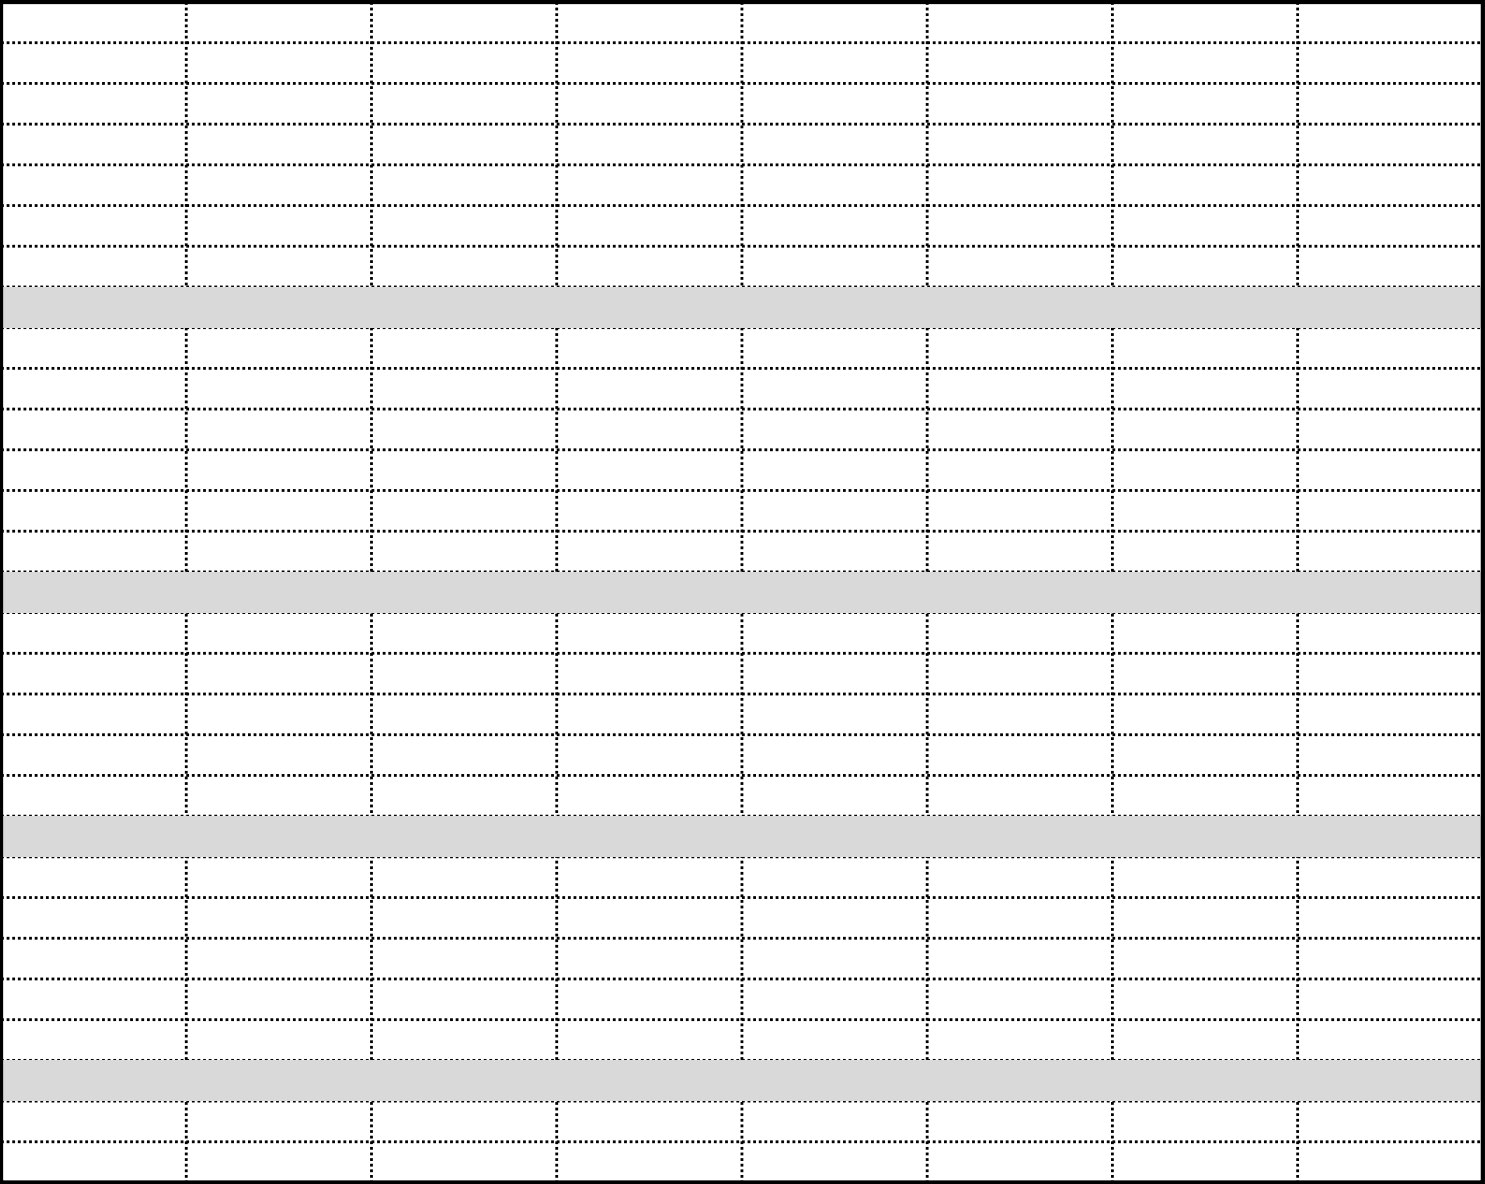

Topic Name	Trainer					
Introduction to Spring Framework	Jyothi					
What is Spring?	08-01-2025					
Key Features & Advantages of Spring						
Spring Modules Overview						
Dependency Injection (DI) and Inversion of Control (IoC)						
IoC Container (BeanFactory, ApplicationContext)						
Bean LifeCycle						
Spring Boot Basics	RatnaSrikanth					
What is Spring Boot?	08-04-2025					
Key Features & Advantages of Spring Boot						
Spring Boot vs Spring Framework						
Spring Boot Starter Projects						
Spring Boot Auto-Configuration						
application.properties / application.yml						
Creating a Spring Boot project (Using Spring Initializr, Maven)						
Spring Boot Annotations @SpringBootApplication@Controller@F						
Spring Core	Jyothi					
Bean Creation (@Component, XML, Java Config)	08-05-2025					
Dependency Injection Techniquesa, Constructor Injectionb, Setter Injec						
Spring Annotations (@Component, @Service, @Repository, @Contr						
Scopes (singleton, prototype)						
Java-Based Configuration (@Configuration, @Bean)						
Spring Expression Language (SpEL)						
@Value Injection from application.properties						
Spring MVC (Web Module)	RatnaSrikanth					

MVC Architecture in Spring						
DispatcherServlet	08-06-2025					
Controllers and Views						
RESTful Web Services						
Exception Handling@ControllerAdvice@ExceptionHandler	08-07-2025					
Validation with @Valid and @Validated						
Spring Boot with Databases (JPA & JDBC)	Harshitha					
Spring JDBC Template	08-08-2025					
Spring Data JPAa, Entities and Repositoriesb, JpaRepository, CrudRep						
Query Methods & Custom Queries(@Query)	08-11-2025					
Transactions (@Transactional)						
DB Integration and Intialization	08-12-2025					
Spring Security	Surya					
What is Spring Security?	08-13-2025					
Authentication and Authorization						
Security Annotations (@Secured, @PreAuthorize)	08-14-2025					
Understanding CSRF, CORS, JWT						
Spring Boot with REST API	RatnaSrikanth					
Building RESTful Services						
Exception Handling in APIs	08-15-2025					
Consuming APIs with RestTemplate or WebClient						
Swagger/OpenAPI for API Documentation	08-18-2025					
Spring Profiles	Preneet					
Profiles (@Profile, application-dev.properties)						
Logging with Slf4j / Log4j	08-19-2025					

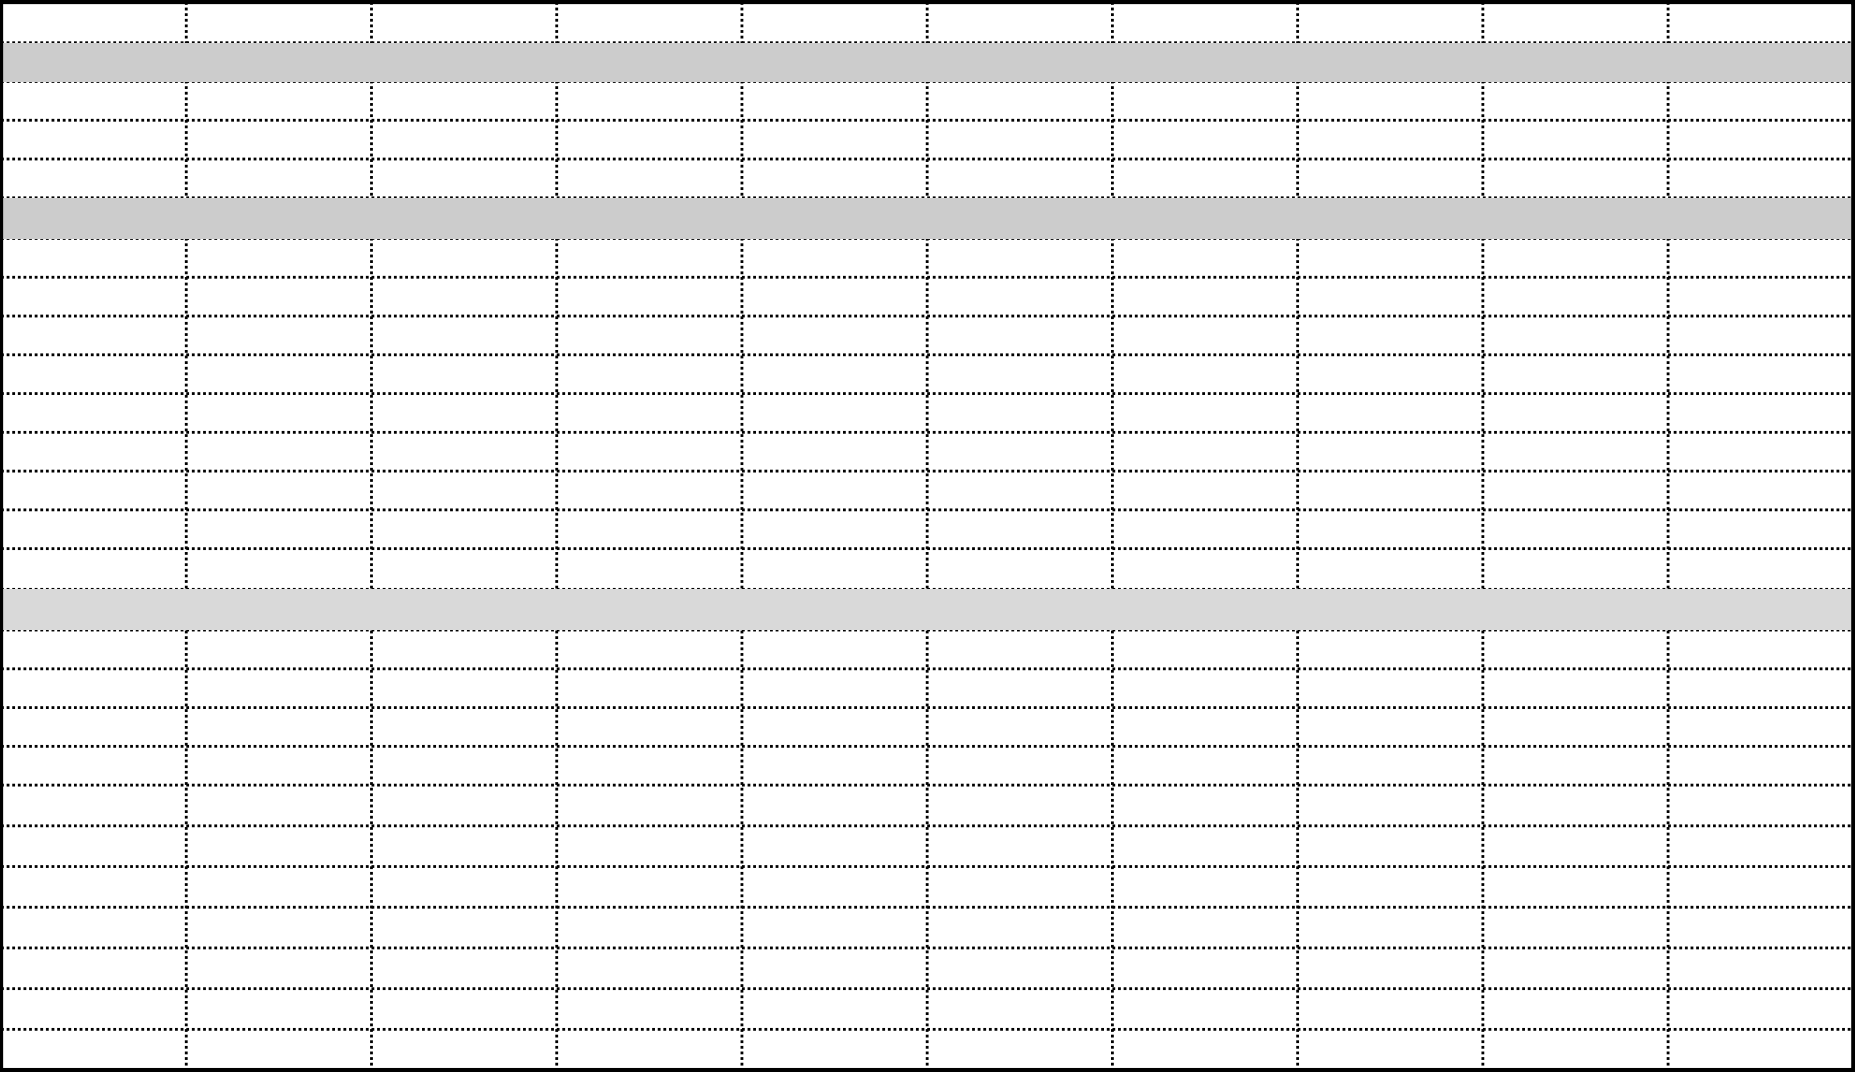

SpringBoot + Thymeleaf	06-10-2020					
Actuator, Health of the service						

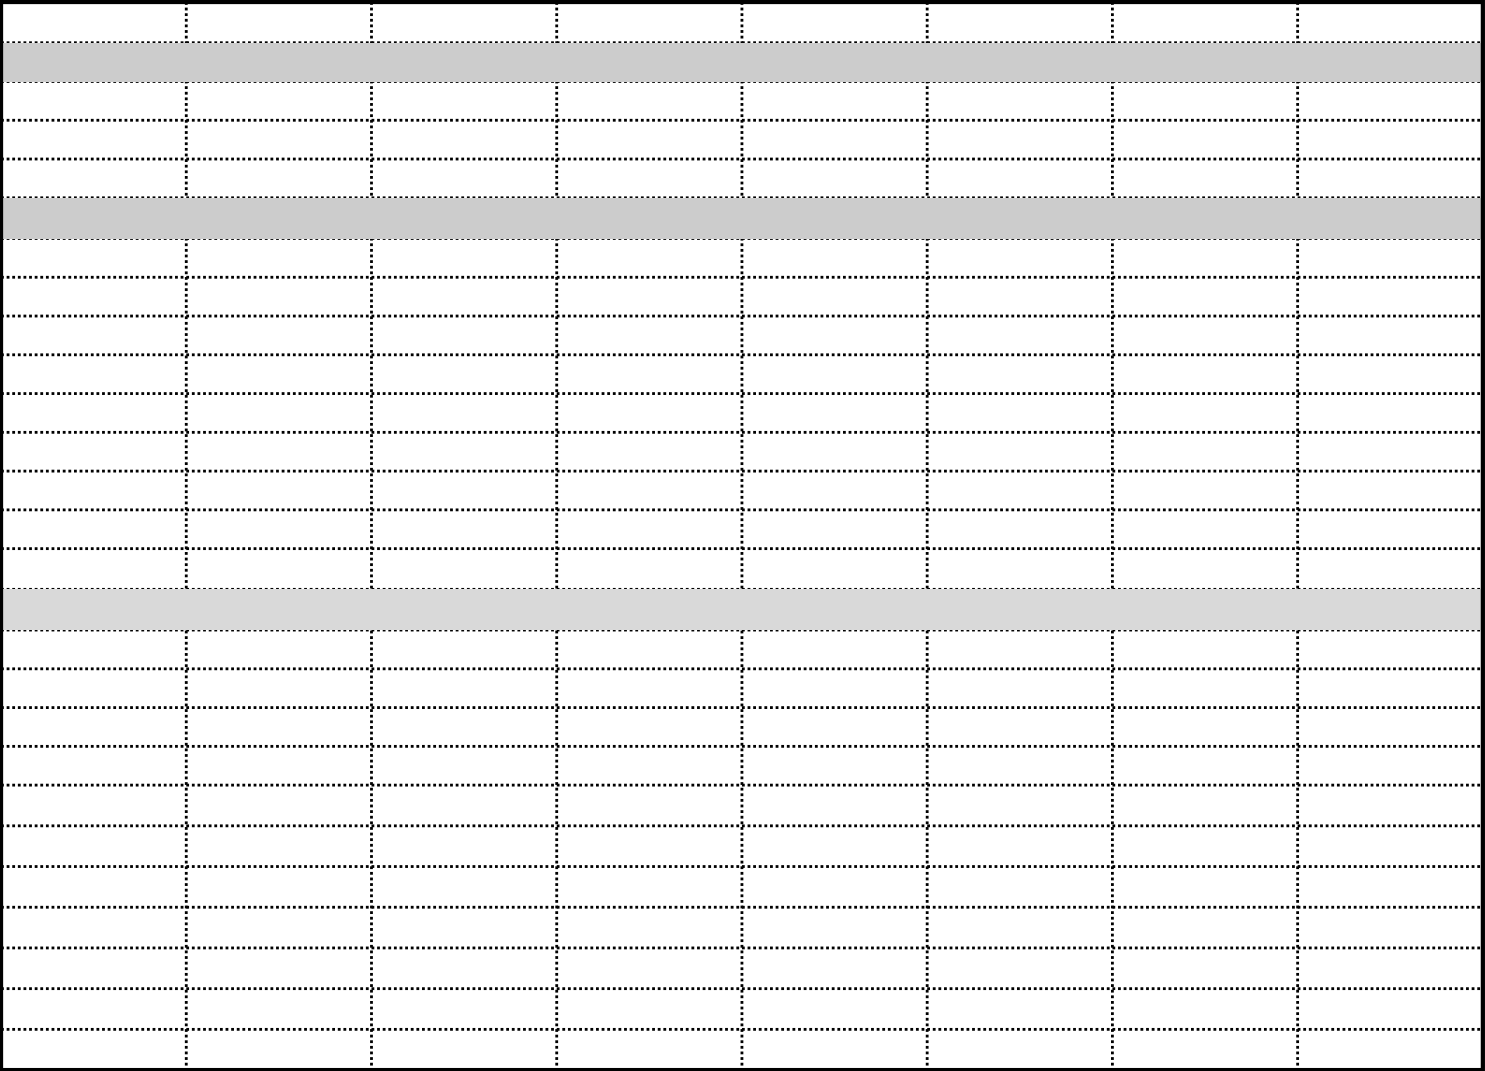

Topic Name	Trainer	No. Of Days Required				
MySQL	Varma	3 Days				
Getting Started with MySQL						
Keys, Indexes, and Constraints in MySQL						
MySQL Built-in Functions						
Stored Procedures, Triggers, and Events						
User Management and Security (DCL)						
Backup, Restore, and Performance Tuning						

[illegible]

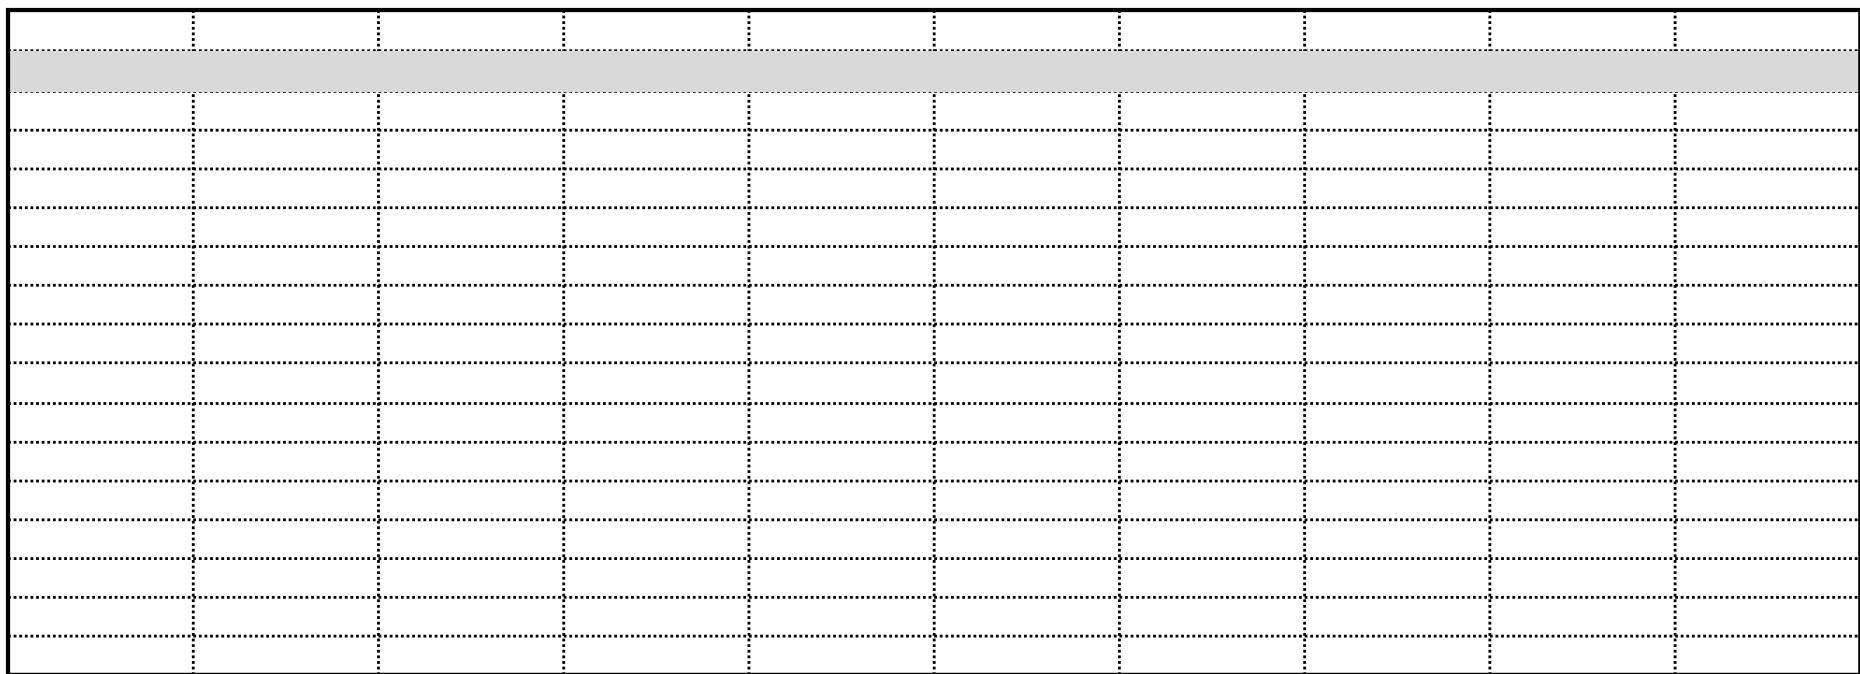

[illegible]

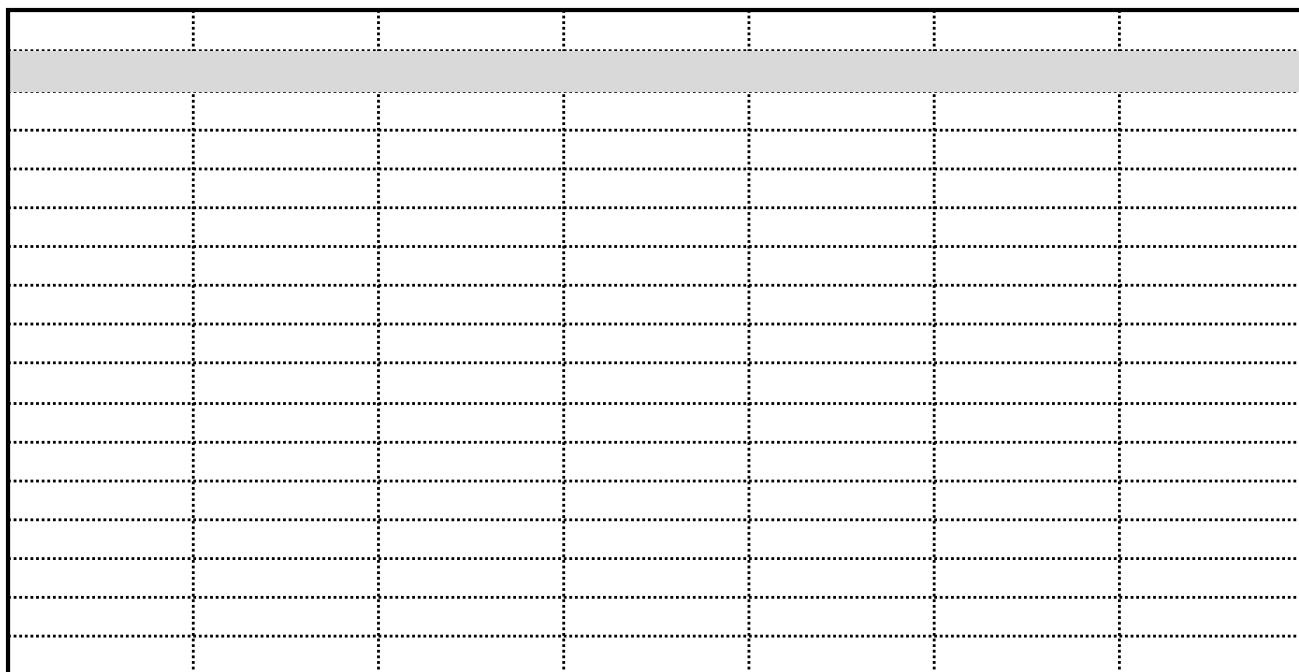

Topic Name	Trainer					
HTML:	Varma					
a, What is HTML?	07-02-2025					
a, Metadata Tags	07-03-2025					
CSS:	Nikhila & Reshmika					
a, What is CSS?						
a, Basic selectors						
a, Margin, border, padding and content	07-04-2025					
a, Fonts and Text alignments						
a, Static, relative, absolute, fixed, float etc..						
a, Flex container and items						
Grid Layout						
(Usage of Media queries and viewport settings)						
	07-07-2025					
JavaScript:	Surya					
a, What is JavaScript?						
Variables and Data Types						
Operators and Expressions						
a, Conditonal Statements						
a, Function declarations and expressions						
Objects and Arrays	07-08-2025					
DOM Manipulation and Event Listeners						
Events, Forms and Validations						
a, fetch API basics	07-09-2025					
TypeScript	Prasanthi					
TypeScript	07-10-2025					

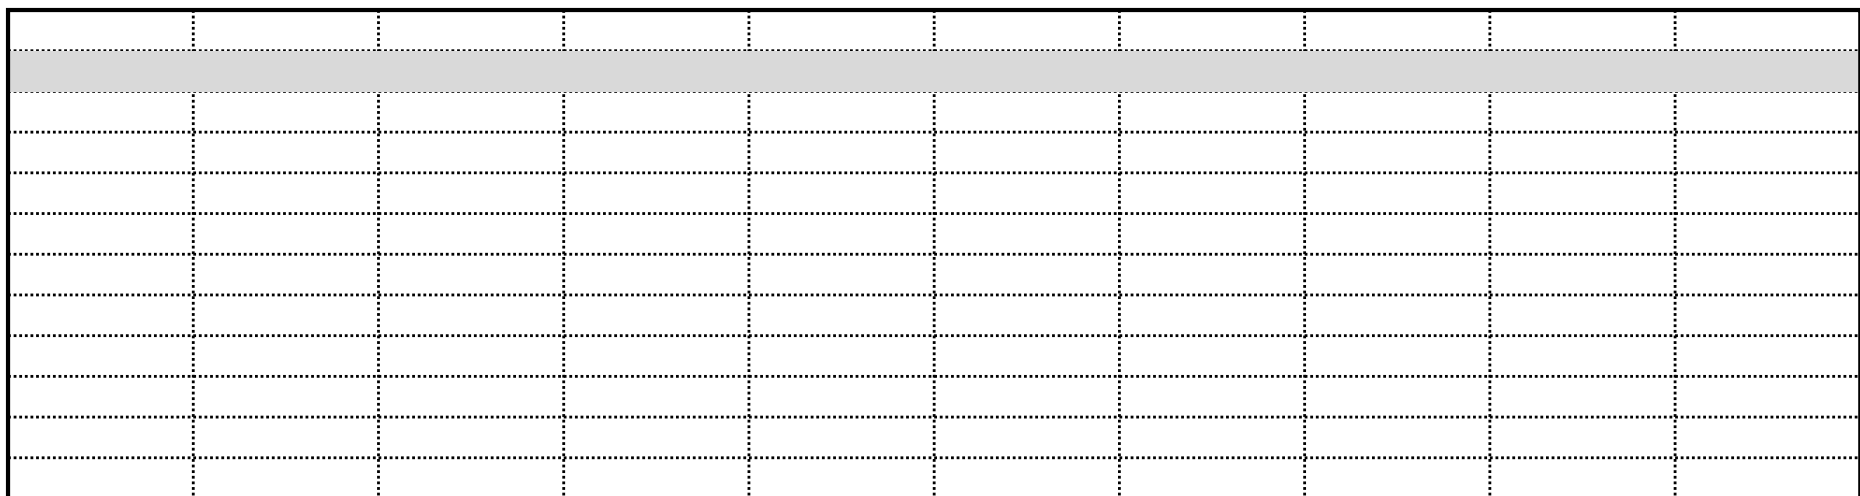

Topic Name	Trainer	Start Date	End Date			
Introduction to Angular , What is Angular?b, Angular vs other frameworks	Preneet	07-11-2025	07-11-2025			
Project Structure and CLI	Varma	07-14-2025	07-14-2025			
Modules and Components a, App module and feature modulesb, Components	Varma	07-15-2025	07-15-2025			
Templates and Data Binding a, Interpolationb, Property bindingc, Expression	Surya	07-16-2025	07-17-2025			
Directives a, Component Directivesb, Attribute Directivesc, Structural	Nikhila	07-18-2025	07-21-2025			
Pipes	Nikhila	07-22-2025	07-22-2025			
Forms in Angular a, Template-driven Formsb, Reactive Forms	Reshmika	07-23-2025	07-24-2025			
Angular Material & UI Libraries	Preneet	07-25-2025	07-28-2025			
Services and Dependency Injection	Preneet	07-29-2025	07-30-2025			
Routing and Navigation (CanActivate, CanDeactivate)	Reshmika	07-31-2025	07-31-2025			
HTTP Client Module a, Using HttpClient for API callsb, GET/POST/PATCH	Srikanth	08-01-2025	08-04-2025			
Component Communication a, Input and Output decoratorsb, Event	Reshmika	08-05-2025	08-07-2025			
Internationalization (i18n) a, Angular i18n toolsb, Translating templates	Srikanth	08-08-2025	08-08-2025			
Usage of RxJS a, Observable patternsb, Operators: map, filter, switch	Surya	08-11-2025	08-12-2025			
Basic Introduction to NG-ZORRO (Angular UI library based on Angular)	Reshmika	08-13-2025	08-13-2025			

Topic Name	Trainer	No. Of Days Required				
Software Testing Basics- SDLC vs STLC- Testing Introduction	Vinod	1				
Test Documentation- Test Case Design Techniques- Writing Test Cases	Lakshmi	1				
Testing Types- Smoke & Sanity Testing- Regression Testing	Lakshmi	1				
DB and API Testing concepts- DB CRUD operations-Overview	Lakshmi	1				
Automation: Playwright with TypeScript Training Topics	Ashok	1				
Core Playwright Concepts- Browsers & browser contexts- Test Runner	Ashok	1				
Page Object Model (POM)- Introduction to POM in Playwright	Ashok	1				
Advanced Automation Features- Handling pop-ups, alerts, iframes	Lakshmi	1				
Test Reporting & Debugging- Generating HTML reports and screenshots	Ashok	1				
CI/CD and Test Execution- Integrating Playwright with GitHub Actions	Lakshmi	1
