

HTML and CSS Tasks

(04-07-2025 – 07-07-2025)

♦ Task 1: Product Card Layout

Objective: Create a responsive product card using only HTML and CSS (up to box model).

Requirements:

- A container with an image, product name, price, and a “Buy Now” button.
- Use div, img, p, and button tags appropriately.
- Add padding, border, and margin.
- Ensure the card has a fixed width and centers horizontally.

Example:

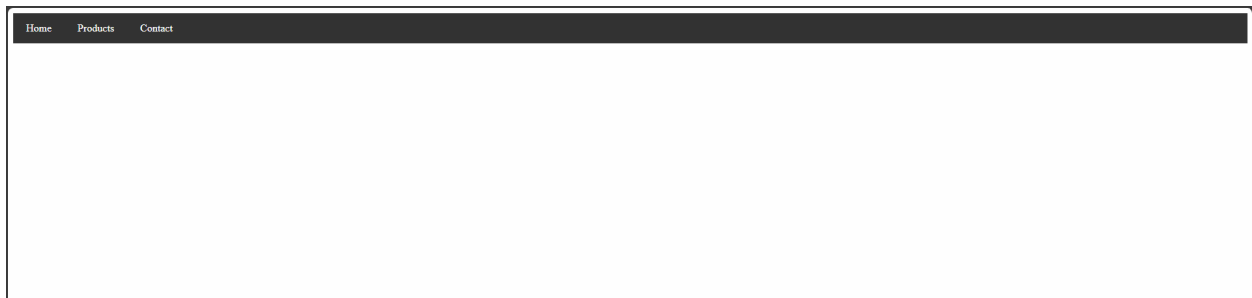

♦ Task 2: Navigation Bar Using Box Model

Objective: Build a horizontal navigation bar with spacing and hover effects.

Requirements:

- Use ul and li for the nav structure.

Example:

Task 3: Two-Column Layout Without Flexbox/Grid

Objective: Build a simple two-column layout using only floats and box model properties.

Requirements:

- Left column: 30% width, right column: 70%.
- Add border and padding.

Clear the float properly.

Example:

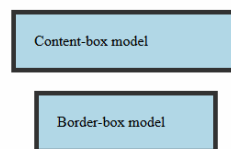

Task 4: Build a Box Model Visualizer

Objective: Create a demo that shows how margin, border, padding, and content behave.

Requirements:

- A centered div with text inside.
- Apply background color for content, border color, margin, and padding.
- Use box-sizing: content-box and box-sizing: border-box to see the difference.

Example:

Task 5: Create a Pricing Table

Objective: Build a pricing table with 3 boxes side-by-side using box model concepts.

Requirements:

- 3 boxes in a row using inline-block or float.
- Each box has a heading, price, and list of features.
- Styled using padding, margin, and border.

Example:

Basic \$9/mo ✓ Feature 1 ✓ Feature 2	Standard \$19/mo ✓ Feature 1 ✓ Feature 2 ✓ Feature 3	Premium \$29/mo ✓ All Features
--	---	---

♦ Task 6: Build Your Personal Portfolio Page

Objective: Create a personal portfolio page using only HTML and CSS (up to box model concepts).

Instructions:

Build a **single-page personal portfolio** that includes the following sections:

✓ **Requirements:**

1. Header Section

- Your name and a short title (e.g., Frontend Developer)
- Center-aligned
- Add padding and a bottom border

2. About Me Section

- A short paragraph about you
- Use margin and padding to separate from other sections

3. Projects Section

- Add at least **2 project cards**
- Each project should include:
 - Project title
 - Short description
 - A placeholder image
- Use borders, padding, and margin for layout
- Arrange project cards side by side (using float or inline-block)

4. Contact Section

- Include email, phone (dummy), and a simple contact form (name, message)
- Form styling using box model concepts (padding, margin, border)

5. Footer

- Centered copyright

- Add padding and top border

Example:
